DOCUMENTS OF THE FISHERY RESOURCES DIVISION OF FAO DEPARTMENT OF FISHERIES

Documents which are not official FAO publications are issued in several series. They are given a restricted distribution and this fact should be indicated if they are cited. Most of them are prepared as working papers for meetings, or are summaries of information for use of Member Governments, organizations, and specialists concerned. These series are the following:

FAO Fisheries Report **FIR /R (No.)**
FAO Rapports sur les pêches
FAO Informes de pesca

Special groups of synopsis are identified by symbols followed by classification numbers based on indexed code of "ASFA":

SAST	Data concerning certain species and fish stocks
MAST	Information on methods and subjects
OT	Oceanographic data
IT	Limnological data

DOCUMENTS DE LA DIVISION DES RESSOURCES HALIEUTIQUES DU DÉPARTEMENT DES PÊCHES DE LA FAO

Des documents qui ne figurent pas parmi les publications officielles de la FAO sont publiés dans diverses séries. Ils font seulement l'objet d'une distribution restreinte, aussi convient-il de le préciser lorsque ces documents sont cités. Il s'agit le plus souvent de documents de travail préparés pour des réunions, ou de résumés d'information à l'intention des gouvernements des pays membres, ainsi que des organisations et spécialistes intéressés. Ces séries sont les suivantes:

FAO Fisheries Circular **FIR /C (No.)**
FAO, Circulaire des pêches
Circular de Pesca de la FAO

Des catégories spéciales de synopsis sont identifiées à l'aide de symboles suivis des chiffres de classification basés sur le code d'indexation de la «ASFA»:

SAST	Données sur certaines espèces et populations de poissons
MAST	Renseignements sur des méthodes et des sujets
OT	Données océanographiques
IT	Données limnologiques

DOCUMENTOS DE LA DIRECCION DE RECURSOS PESQUEROS DEL DEPARTAMENTO DE PESCA DE LA FAO

Esta Dirección publica varias series de documentos que no pueden considerarse como publicaciones oficiales de la FAO. Todos ellos tienen distribución limitada, circunstancia que debe indicarse en el caso de ser citados. La mayoría de los títulos que figuran en dichas series son documentos de trabajo preparados para reuniones o resúmenes de información destinados a los estados miembros, organizaciones y especialistas interesados. Estas series son las siguientes:

FAO Fisheries Synopsis **FIR /S (No.)**
Synopsis FAO sur les pêches
Sinopsis FAO sobre la pesca

Grupos especiales de sinopsis se distinguen con las siglas siguientes, seguidas por números de clasificación que se basan en las claves de los índices de la «ASFA»:

SAST	Datos relativos a ciertas especies y poblaciones
MAST	Sinopsis sobre métodos y materias
OT	Sinopsis sobre oceanografía
IT	Sinopsis sobre limnología

FAO Fisheries Technical Paper **FIR /T (No.)**
Documents techniques FAO sur les pêches
Documentos técnicos de la FAO sobre la pesca

Special groups of Technical Papers are identified by:

RE	Indexed lists of experts and institutions drawn from Registers maintained by the Fishery Resources Division
CB	Lists of periodicals, special sections of "Aquatic Sciences and Fisheries Abstracts (ASFA)," special bibliographies and papers concerning documentation problems
MFS	Provisional editions of "FAO Manuals in Fisheries Science"
WAFR	Provisional reviews of fisheries resources and their level of exploitation, by regions or by species groups, within the World Appraisal of Fishery Resources system

Some documents also have another identification, if, for example, they have been contributed to a meeting for which papers have been numbered according to another system.

Des catégories spéciales de documents techniques sont identifiées à l'aide des symboles suivants:

RE	Listes indexées d'experts et institutions tirées des registres tenus à jour par la Division des ressources halieutiques
CB	Listes de périodiques, des sections spéciales de la «Aquatic Sciences and Fisheries Abstracts (ASFA)», des bibliographies particulières et des articles sur les problèmes de documentation
MFS	Editions provisoires des «Manuels FAO de science halieutique»
WAFR	Synthèses provisoires des ressources halieutiques et leur niveau d'exploitation, préparées, par régions ou groupes d'espèces, dans le cadre du Programme mondial pour l'évaluation des ressources halieutiques

Certains documents portent parfois d'autres numéros d'identification, par exemple s'ils ont été préparés pour une réunion dont les documents ont été marqués à l'aide d'un autre système.

Grupos especiales de documentos técnicos se identifican por las siglas siguientes:

RE	Listas índices de expertos y de instituciones tomadas de los registros que se llevan en la Dirección de Recursos Pesqueros
CB	Listas de periódicos, secciones especiales de la «Aquatic Sciences and Fisheries Abstracts (ASFA)», bibliografías especiales y trabajos relativos a los problemas de documentación
MFS	Ediciones provisionales de los «Manuales de la FAO de Ciencias Pesqueras»
WAFR	Reseñas provisionales de los recursos pesqueros y de su estado actual de explotación, por regiones o por grupos de especies, en el marco del sistema mundial para la evaluación de los recursos pesqueros

Algunos documentos tienen también otra identificación si, por ejemplo, son contribuciones a una reunión cuyos documentos han sido marcados con arreglo a otros sistemas.

DIRECTORY OF EXPERTS ON MARINE POLLUTION

PREPARATION OF THIS DOCUMENT

This Directory is an output from Aquatic Sciences and Fisheries Information System (ASFIS), mentioned by FAO, a component of which is Register of Experts containing the names, qualifications and experience of aquatic scientists from around the world. Originally established for inhouse needs, the Register was extended a few years ago through collaboration with Unesco, and the Scientific Committee on Oceanic Research of ICSU, and provided the basis for the compilation of the International Directory of Marine Scientists, published by FAO, and a number of Lists of Experts in selected fields.

Taking into account the importance attached by FAO Member Governments to the protection of living aquatic resources and fisheries including aquaculture from pollution, and the increasing number of on-going and planned national and international activities in this and related fields; the present Directory was prepared in order to provide information for establishing contacts and cooperation among institutions and experts concerned. The Directory will also contribute to various programmes being promoted under the auspices of IOC, particularly the Global Investigation of Pollutants in the Marine Environment (GIPME), as part of FAO support to the Commission as one of the agency members of the Inter-Secretariat Committee on Scientific Programmes Relating to Oceanography (ICSPRO).

The present Directory up-dates the provisional version of "A World List of Experts on Marine Pollution", originally prepared for the FAO Technical Conference on Marine Pollution and its Effects on Living Resources and Fishing (Rome, December 1970). It contains the names of experts who returned a special Information Form designed to collect personal data on activities in the field of marine and brackish water pollution. This information was merged with that already collected to provide the essential data for the Expert Register, and the present listing is prepared via computer.

The Directory contains three lists:

(1) An alphabetical list of scientists in which each name is preceded by a 4-digit number designating affiliation;

(2) A list of institutions and their addresses each followed by the names of staff engaged in pollution work. This list is in geographic order, classified by FAO area code;

(3) A subject index listing staff by their field of experience.
